HEAVY GERMAN ATTACK THROWN BACK BY YANKS

Huns Lose Heavily in Big Attack—Marked Bravery Shown By Yanks in Fight.

With the French Army in France, May 1—A heavy German attack launched yesterday against the Americans in the vicinity of Villers-Bretonneux, was repulsed with heavy losses for the enemy. The German preliminary bombardment lasted two hours, and then the infantry rushed forward, only to be driven back leaving large numbers of dead on the ground in front of the American lines. The German bombardment opened at five o'clock in the afternoon and directed especially against the Americans, who were supported on the north and south by the French. The fire was intense, and at the end of two hours, the German commander sent forward three battalions of infantry. There was hand to hand fighting all along the line, as a result of which the enemy was thrust back, his dead and wounded lying on the ground in all directions. Five prisoners remained in American hands. The struggle, which lasted a considerable time, was extremely violent, and the Americans displayed marked bravery throughout.

It was the first occasion in which the Americans were engaged in the big battle which has been raging since March 21, and their French comrades are full of praise for the manner in which they conducted themselves under trying circumstances, especially in view of the fact that they are fighting at one of the most difficult points on the battle front.

The American losses were rather severe.

Huns Wait For Fresh Troops Before Again Striking in Flanders

British Army in Flanders, May 1—General Von Arnim made no further move along the Flanders front last night nor had an attack been expected. The heavy defeat which the Germans suffered Monday forced them to pause and bring up fresh troops before continuing their drive for the hill positions in the Kemmel region.

A few more hours, however, will suffice for their reorganization and another assault may be expected immediately.

Heavy artillery firing continued at various parts of the battle line during the night and there were the usual outpost actions. The back areas between Ypres and Hazebrouck were heavily shelled by the Germans. An enemy attempt yesterday afternoon to cut the barbed wire at Willeitje was dispersed by artillery fire.

The recent fighting in Flanders has furnished many unusual and trying experiences for civilians living near the front, but none of these was more amazing than that of two tiny French children who are in a British military hospital. These tots were among the few unfortunate persons in Neuve Eglise when the Germans overran that place, the town immediately became a storm center, which was continually changing hands, and German soldiers took these two babies into trenches for their protection.

German Artillery in Vicinity of Bethune Growing More Active

London, May 1—"The enemy's artillery has been active today against the back areas in the neighborhood of Bethune and has heavily shelled French positions on the Loos sector," says Field Marshal Haig's communication issued tonight. "On the remainder of the front there is nothing to report beyond the usual artillery activity and local encounters on both sides."

"The number of German prisoners captured by the British armies in France during March was 1,061, including 69 officers. In April a further 5,241 prisoners, including 136 officers, was captured. These figures are exclusive of the prisoners taken by the French."

Bohemian Troops Join the Italian Armies

London, May 2—The Daily Mail's correspondent at Italian headquarters says that Bohemian troops are joining the Italian troops against Austria and the first detachments are already on the Italian line wearing Italian uniforms.

This information has passed through the hands of both Italian and British censors and would therefore appear to be authentic. The defection of the Bohemians would in a measure explain the delay in the proposed great offensive long heralded, of the Austrians against the Italians.

GIVES SCHOOL A VALUABLE MACHINE

The High School was the recipient of a valuable gift yesterday from Dr. P. G. Smoot. He had a large electric machine for developing static electricity, valued at \$700 which he very generously donated to the Physical Laboratory of our High School. I am quite sure that this is the best electrical machine in any High School Laboratory in the State.

The Doctor has given us books on several occasions, but this last gift put him in the class of those who have given generously for the advancement of our schools.

The John Deere Corn Drill

This is a new and up to date drill with double disc openers. It is equipped with the Deere edge-selection drop and has new tip-over hopper, exactly like the New Deere Corn Planter. The seed plates are driven by a set of strong bevel gears and pinions.

There are three rows of teeth on the drive wheel, giving three drilling distances for each seed plate. The drive wheel is built with an improved form of traction lug, lugs being extended on each side of rim of wheel, so as to secure a good grip on the ground and at the same time be self-cleaning.

Disc openers are shaped with a double curve so as to offer the least resistance in opening a furrow. They are provided with ample bearings, which are readily oiled.

Polished steel coulters covers are used. These are provided with a number of holes to secure the desired slant to cover properly under varying conditions.

An adjustable gauge or pressure wheel with concave rim can be furnished on special order at additional price.

The seeding mechanism is thrown in and out of gear by means of a hand-lapet on right handle-grip.

ROOTED IN THE U. S. A.

It is announced by florists and nurserymen that one result of the war is a demonstration that this country is not really dependent upon Europe for seeds, bulbs or plants, although in the past it has obtained from there a large part of all three. It is to be regretted that it took a war to teach us that we can really be independent in this as in many other respects. We have remained dependent in the matter of dyes. We have bought a considerable amount of cutlery, jewelry, laces, and innumerable other commodities from European producers because it was easier to do that than to learn how to make them equally as well as well ourselves. We still carry in our pockets knives with the word "Germany" imprints on the bottoms. Of course there are some isolated instances in which it is impracticable for us to produce as good an article as we can buy in other countries. In most instances, however, it is wholly a question of cost of production—the foreigner being willing to live on a lower scale and thereby produce at a lower cost. We have too often accepted the teaching of Prof. F. W. Taussing, now chairman of the Tariff Commission, who argues that we lose nothing if we buy an article made abroad if we buy it cheaper than we can make it at home. The fallacy of that argument is now apparent to everyone. We lose every time we send a dollar abroad to buy any article that we can reasonably make at home, even at increased cost. It is worth much to us to keep our money circulating at home; it is worth still more to be industrially independent.

CAMPAIGN

On Child Welfare Opens in Mason County — Strong Committees Named to Conserve Children in War Time.

In order to most effectively safeguard the most precious possessions of this or any nation—our children for whose future liberty the United States finally was compelled to enter the world war, we are asked by the Federal Childrens Bureau acting through the Council of Defense to make this a special year of Health and Child Welfare Work in an effort to conserve and protect children of all ages during the changed conditions, emergencies and shocks of war and to prevent them from being blighted as has the childhood of most of the other nations at war.

Many countries at beginning of war relaxed their child Labor Laws as this was thought necessary to intensify production, but experience proved that it failed of its purpose, and in England, France and Italy definite steps were taken by the Governments to restore the provisions of the labor laws because they were found necessary not only for conservation of the workers but to improve the quality and quantity of their work.

In England and France official efforts have been made to extend and re-organize secondary education in ways to effect the employment of children and raise the standard of their protection.

It must be understood however that the labor standards in European countries in times of peace were lower than those accepted by public opinion and legislation in this country. Canada and the other British colonies being alone comparable to the more advanced states of this country there has been no relaxing of labor laws affecting women and children in any Canadian Province although Canada had sent a year ago 400,000 men or one nineteenth of her entire population from civil to military life.

But now in most of the countries at war notwithstanding all efforts and precautions, exceptions and exemptions have had to be made to meet the terrible pressure of military necessity and labor scarcity and children have become more deeply engaged from day to day.

In Germany the Child Labor Laws were relaxed by the War Emergency act of August 4, 1914, since when no figures have been available.

As a side light on German "Kultur" it is interesting to know that previous to and at the time Germany's highly efficient millions of soldiers took the field to slaughter a defenseless world, there were 10,325,580 women and children at work in Germany, 4,000,000 were women engaged in agriculture and several hundred thousand were children under fourteen years of age. If that was their normal status as the price of their militarism what must be their condition now?

The question of school exemption is one that will be brought increasingly nearer to us as the war proceeds on what appears to be a lengthening course.

President Wilson at the time the U. S. entered the war sounded this warning urging that children be kept in school and young people make greater efforts toward a college education as a preparation for future usefulness and participation. The manufacture and operation of the scientific instrumentalities of modern warfare and also surgery and nursing make greater demands on the educated young manhood and womanhood of our country than ever before. It must be remembered that the present fearful efficiency of the German army and

nation is due to the long years of compulsory education, compulsory work and compulsory military training, and if we should not become a subject nation and have the German soldiers goose-stepping up and down the streets of Maysville we must "fight the devil with fire." No other course remains open to us now.

In order to secure fuller co-ordination, co-operation and unity of action during the war time among all the various organizations and activities relating especially to children interest the following able Committee of Health and Child Welfare has been appointed.

It is not the intention to disturb existing conditions or put extra work on these already over busy people but merely by occasional meetings and free discussions of the needs of the hour to bring them into closer relation.

VINOL CREATES STRENGTH

Positive—Convincing Proof

It is all very well to make claims, but can they be proven? We publish the formula of Vinol to prove the statements we make about it.

By Cod Liver and Beef Peptones, Iron and Manganese Peptones, Iron and Manganese Citrate, Lime and Soda Glycophosphates, Casein.

Any doctor will tell you that the ingredients of Vinol as published above, combine the very elements needed to make strength.

All weak, run-down, overworked nervous men and women may prove this at our expense.

There is nothing like Vinol to restore strength and vitality to feeble old people, delicate children and all persons who need more strength.

Try it. If you are not entirely satisfied, we will return your money without question; that proves our fairness and your protection.

CONVINCING TESTIMONY

Given By Many Maysville People.

Experiences told by Maysville people—

Those who have had weak kidneys—

Who used Doan's Kidney Pills—

Who found the remedy effective—

Such statements prove merit.

You might doubt an utter stranger.

You must believe Maysville People.

Here's Maysville proof. Verify it.

Read. Investigate. Be convinced.

You'll find why Maysville folks believe in Doan's.

George H. King, Prop. grocery, 615 E. Second St., says: "I have used Doan's Kidney Pills off and on for several years, getting them at Chanslor's Drug Store and I have been greatly benefited by them. Sometimes my kidneys have been out of order and the kidney secretions have been irregular in passage. I have suffered severely with aches through the small of my back. When I have been in that way, I have used a box or two of Doan's Kidney Pills. They have never failed to cure the attack in great order."

Mr. King is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Mr. King had—the remedy backed by home testimony. 60 cents at all stores. TO win the war it is unavoidable that the rights of the individual be infringed. It is unavoidable that his personal comfort be temporarily ignored, his personal property temporarily conscripted, his personal fortunes temporarily impaired.

We Must Make Haste We Must Strike Hard

There is no time to weigh too carefully the questions of individual equity. The big job, the one job, is to win the war. There will be plenty of time to talk about it and adjust grievances afterward.

All arguments aside, we've got one big job on at the moment—to

CONSTRUCTION OF DAMS

On Ohio River May Be Postponed Until War Is Over.

Washington, April 30.—The construction of all dams in the Ohio River which have been authorized, but on which building operations have not been begun, may be postponed until after the war.

Senator Duncan Fletcher, of Florida, Chairman of the Senate Committee on Commerce, which has charge of river and harbor legislation, suggested today that the committee recommend this as the solution of the problem presented by Ohio River contractors, who say they cannot proceed with the work without large loss owing to the increased cost of materials and labor.

"To grant the revision of contracts asked by the contractors would open too wide a door," said Chairman Fletcher. "Every other contractor working for the Government who has been affected by increased costs, whether working on river and harbor contracts or something else, would be

entitled to exactly the same treatment and to revise all these contracts, would almost bankrupt the Treasury. I do not see how it would be possible to grant what the contractors are asking."

LOOKS "DRY" FOR LEXINGTON

The sending to Lexington next week of 400 drafted men from Tennessee may cause the closing of ninety saloons there under the law that no saloons may be operated in a city within a half-mile radius of an army encampment. The Tennesseans are to be trained in mechanical and engineering work at the University of Kentucky, which is situated near the center of the city. The actual encampment will be at the Kentucky Trotting Horse Breeders' plant, which is just within the city limits. There are 106 saloons in that city.

THE SCENT OF THE KAISER

THE old Remington House faced the river, and from its windows one looked across into West Virginia. "Ashes," the aged colored porter, would sit for hours on the front steps, gazing over at the hills until he dozed and dreamed.

"Ashes" recognized no geographical divisions. To him it was still the "Ole Virginny" of his slavehood; the land of dark days and bitter memories; a region of dread.

In the first really warming sunshine of the budding spring, "Ashes" dozed at his favorite corner of the front steps. The air was soft and balmy from the water. Robins and bluebirds were building in the trees. Feathery clouds lazied across the heavens. And under "Ashes" nose, Bill Thompson, the hackman, held a sizzling, slow-burning, stench-diffusing sulphur match.

"Ashes" stirred uneasily and Bill Thompson scuttled backward around the corner. Suddenly "Ashes" came violently out of the arms of Morpheus. "Hi-yi, Kaiser man; Kaiser-man!" he shouted, as he rose like a jumping-jack.

Tear was in his eyes, terror in his voice as Bill Thompson came 'round the corner. "Ashes" gave him one startled glance and hobbled away, muttering wildly.

"Well, I'm jiggered," Bill Thompson exploded, looking after him.

President Biggs of the First National turned to find "Ashes" closing the door to his private office. "Ashes" was strangely excited. His hands shook, his voice trembled, his eyes were big. There was a nervous twitching of his bad leg.

Marstar Biggs, he blurted, "Ise jess had er presentment. Yessah, done had er presentment. Settin' on de steps dozin' an' 'long comes dis Kaiser man. Horned an' buckled and sabahd suh, laik a Virginny Majah. An' breathin' smoke! Niggahmans, he sez to me: you all's been libin' too easy-laik. Dis kentry's all been libin' too easy. Ise comin' to take it. Ise goin' puttin' you all back in slavery; niggahmans, white folks, all you. Hump yo'self! he sez, an comes at me. Jess es he 'bout grabs me I gets er sniff o' him and wakes up. Marstar Biggs, 'pon my soul an' honah, my nose full'er brimstone. Dat Kaisermans, Marstar Biggs, he Ole Nick hisself!"

"You've been dreaming, 'Ashes," suggested the banker. "Dreamin, huh!" snorted "Ashes." "Nossah, Ise jess bin er wakin' up. Member dat hunderd dollahs I gins yuh five-six years back? I wants you all to git me Libbetty Bonds foh hit. Yessah, Libbetty Bonds foh sho'. I doan wants no moh slavery. Nossah; no moh slavery. Ise had mine."

Workers of America, You Have Your Stake in War

OUR Republic now finds it necessary to ask Americans to contribute to another Liberty Loan. Our country is at war to maintain, to defend the basic principles upon which our free government is established.

Our country calls for service. Each and every man, woman, and child has a personal duty to perform—an obligation accompanying the opportunities freely accorded all. Some have offered and are giving their lives—others their abilities—but all can and should contribute money in accord with their means. It may mean savings—economies practiced in the spirit of patriotic and temporary sacrifices.

And yet it is the safest investment in the whole world.

The need is acute—money is the sinews by which we "carry on" the war program. We must not—dare not fail in an undertaking that means so much to all humanity.

Workers of America—you have as much if not more at stake than any other group of citizens. You are urged to subscribe as generously to this loan as is within your power.

Do all that you can for the common cause of democracy and freedom the world over.

Sam Thompson

A Business Should be as Big as Its Job

If bigness is of benefit to the public it should be commended.

The size of a business depends upon the needs which that business is called upon to serve. A business should be as big as its job. You do not drive tacks with a pile-driver—or piles with a tack-hammer.

Swift & Company's growth has been the natural and inevitable result of national and international needs.

Large-scale production and distribution are necessary to convert the live stock of the West into meat and by-products, and to distribute them over long distances to the consuming centers of the East and abroad.

Only an organization like that of Swift & Company, with its many packing plants, hundreds of distributing houses, and thousands of refrigerator cars, would have been able to handle the varying seasonal supplies of live stock, and meet the present war emergency by supplying, without interruption:

First—The U. S. soldiers and the Allies in Europe by shipping as much as 800 carloads of meat products in a single week!

Second—The cantonments in the United States.

Third—The retailers upon whom the American public depends for its daily supply of meat.

But many people ask—Do producers and consumers pay too much for the complex service rendered?

Everyone, we believe, concedes the efficiency of the Swift & Company organization—in performing a big job in a big way at a minimum of expense.

Swift & Company's total profit in 1917 was less than 4 cents on each dollar of sales of meat and by-products. Elimination of this profit would have had practically no effect on live stock and meat prices.

Do you believe that this service can be rendered for less by any other conceivable method of organization or operation?

These questions and others are answered fully and frankly in the Swift & Company 1918 Year Book sent free on request. Address Swift & Company, U. S. Yards, Chicago

NOTICE OF CONGREGATIONAL MEETING

By order of the Session of the Central Presbyterian Church there will be a Congregational meeting held Friday, May 3, 1918, at 7:30 p. m. to take action on union with the First Presbyterian Church. It is important that every member be present.

CHARLES B. HOLLSTEIN, Clerk of Session.

At the Growers Warehouse in Flemingsburg it was discovered that some one had entered the building and dismantled the scales of weights, brass arms, etc., some of the scales being modern and expensive type. An investigation developed that a 13-year-old boy of the neighborhood had sold the weights, brass arms, etc., as old junk, the parts having previously been battered and bent to give them the appearance of being worthless.

THE SUNDAY SCHOOL

And the Present World Crisis—Some Facts Concerning "Go-to-Sunday-School" Day Next Sunday.

On other "Go-to-Sunday-School" occasions we have felt that we had reason to urge the necessity and wisdom of this movement; but today we are realizing more than ever the fact that this institution is indispensable to the welfare of the country.

The one great lesson that the war has taught us is that the educational system of a nation determine the life and thought of the people. The common verdict is that Germany is what she is because her great leaders and teachers have sown the seed through successive generations, and the Germany today is reaping the harvest. Nietzsche, Trietswe and Bernhardt, with hundreds of other professors and educators, have propagated the ideas of militarism—the doctrine that might makes right. Now suppose for one moment that these leaders, instead of giving the people false ideals and wrong doctrines, had imbued them with the larger principles of democracy and love for their fellow men? If so, today, instead of carnage and bloodshed, the heaven of good will would have made Germany a leader in the great brotherhood of the nations.

Now the point to all this is very simple; must see to it and be very careful as to how our boys and girls are taught, and be sure that they get the right standards of life; and among the institutions which have a part in moulding human life, perhaps none, outside of the home, is a greater factor than the Sunday Schools. Taking the child even before he is old enough for the public schools, the Sunday School keeps ever before him, the ideas and principles of the Great Teacher. Many a man and woman today, all over this land will rise up and bless that institution that touched their lives while they were in the formative period, and early started them in the truer and nobler way of life.

Don't forget next Sunday—"GO-TO-SUNDAY-SCHOOL" DAY.

CLEAN-UP CAMPAIGN

Organized By Committees and Health Nurses Yesterday — Miss Nivin Advises Organized Effort to Clean up City.

A clean up campaign committee consisting of representatives from the Woman's Club, Woman's Committee of Council of National Defense, Parent-Teacher Association and City Health nurses met in the assembly hall of the Chamber of Commerce yesterday afternoon to discuss plans for a clean up campaign for the city of Maysville. While much good work was done during the recent campaign the time allotted the city administration was so short and the weather so bad that the desired results were not obtained.

Secretary Dods of the Chamber of Commerce was elected chairman and Mrs. James B. Ross, secretary of the campaign. May 6 to 12 was designated as clean-up-campaign week.

Miss Nivin, the City Health Nurse, advised the committee to plan an organized effort to clean up the city, as there is no use to cure disease unless the cause is removed.

The following program was decided upon, that there shall be an active publicity campaign before the 6th of May; that the Chief of Police shall be appealed to for a proclamation and notices distributed to every resident of the city through his office.

Mrs. Caplinger, Mrs. Moses and Miss Casey were appointed a committee to visit the schools and enlist the school children's support in this clean up week campaign.

Mrs. Clark, Mrs. R. B. Lovel and Miss Lottie Berry were appointed a committee to visit the City and County Officials and enlist their support, also to arrange for the disposal of the rubbish. This committee shall also call during which each ward shall remove their rubbish. This committee shall also call upon the Boy Scouts for assistance in the removal of this rubbish.

Mrs. James B. Ross and Miss Mary E. Richeson were appointed a committee to wait on the newspapers and enlist their support in an intensive advertising campaign during clean-up-week.

Miss Nivin and Mrs. T. L. Moses were appointed a committee to pick out the most unsightly spots in the city and plan for the improvement of those particular spots. Miss Nivin also suggests that all tin cans that are thrown into the rubbish heap be smashed and it is more than probable that the boy scouts will be enlisted in a "SMASH THE CAN CAMPAIGN."

Mrs. R. B. Lovel, Mrs. James B. Ross and Mrs. Frank Clark were appointed a special committee to draft resolutions and present to the next meeting of the City Council, requesting that a permanent dump be designated in both the East and West end and that there shall be no dumping of rubbish at any other place within the corporate limits.

LIBERTY LOAN SALE WEDNESDAY BRINGS TOTAL TO \$467,050

The sale of Liberty Bonds in Mason county Wednesday amounted to \$11,250 making the total purchase to date \$467,050. The number of purchasers was increased by 27, which brings this total to 1060. Only three days remain of the campaign and it should be the desire of all patriotic citizens in Mason county to bring the grand total to near the \$600,000 mark.

FREIGHT CAR ROBBED

A C. & O. freight car was found broken open yesterday afternoon in the railroad yards here and a dry goods box raided of some valuables.

Mr. James Thomas Day of Flemingsburg, who has been located in St. Louis, Mo., for some time was a visitor in this city yesterday.

Mrs. Carrie T. Robinson is ill at her home on Chester street with tonsillitis and will not be able to mail any calls this week.

Messrs. W. B. Taylor and W. B. Taylor, Jr., of North Carolina, are visiting in Maysville this week on tobacco business.

Mrs. Martin Hanley and daughter, Mary, of West Third street, left this morning to visit Mrs. Brannon of Versailles.

AIMS AND PLANS

Of the Colt-Alber Chautauqua Company Which Will Be Held in This City the Week of June 29 to July 5.

The Chautauqua is one of America's greatest and freest forums. We try to have the message timed to the needs of the hour and our plans reach far in the future. We try to have them accurate, vigorous moving. We try in our all round program to touch all phases of life for the help and encouragement and entertainment of all kinds of people.

We are not partisan in politics nor sectarian in religion. We are intensely interested in helping to solve some of America's big problems. Here are a few we have been working on. The child—his environment, his health, his education his opportunity. The woman, her freedom, her danger, her duty. The horrors of rum. The consolations of religion. The poor man who does not get his share. The rich man who gets more than his share. Taxation: The greatest weapon for economic justice in the hands of the state. The distribution of goods. Industrial Democracy as a necessary corollary to our political Democracy. Education Reform. Humanizing education. How to get the efficiency of a Monarchy into a Democracy. Enough problems to keep us busy for a while. And while we have this serious side to our work constantly in mind, we always remember to entertain.

Everything is grist for us which promises to help our fellows to a bigger, better life and the communities we serve to a larger and more active civic conscience.

We mean to be honest—helpful—decent.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Medicine, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Medicine fails to cure. Send for circulars and testimonials.
